## COVID 19 Screening and Testing

### Daily Health Screening

- All **school staff** engage in daily self-screening for COVID19 symptoms prior to coming to work.
  - We rely on parents/guardians to be our partners in maintaining a safe environment at school. In accordance with health department regulations, **students** must be screened for COVID-19 symptoms before getting on a school bus or entering school property.
- (1) Students with any of the following symptoms should not come to school:**
- New or worsening cough (for students with chronic allergic/asthmatic cough, a change in their baseline)
  - Shortness of breath or difficulty breathing
  - Diarrhea, vomiting, or abdominal pain
  - Fever of 100.4 F or greater or signs of fever (chills/sweating)
- (2) Evaluation for COVID-19 Exposure Risks - To determine needed follow up and return to school for students with any of the above symptoms, determine if they have any of the following risks for COVID-19 in the prior 14 days:**
- Close contact with someone with confirmed COVID-19
  - Close contact with someone under quarantine for possible exposure to COVID-19
  - Travel history

To further assist parents to ensure their children have not been exposed to Covid, WCS will now provide optional rapid Covid tests on a weekly basis. The tests are free and will be offered in the fitness center wing of Williamston High School every Tuesday and Thursday that school is in session from 3:30 - 4:30 pm. The testing will begin on Tuesday, April 20. Important details are listed below:

- A consent form must be completed by parents every time a student is tested. The form must have an original signature if the student is under the age of 18
- The [Antigen Test Consent Form](#) link can be downloaded or paper copies will be available at the testing location
- Parents will only be contacted if the rapid test indicates a positive result. This will typically be within two hours of the rapid test being administered. Positive results from the rapid test should be validated with a PCR test given by a medical professional
- Negative tests results will not be communicated and copies of testing paperwork will not be provided
- Consent forms and testing paperwork will be stored in compliance with student medical record keeping requirements
